JULY-DECEMBER SEED EXPORTS TOTAL \$128.7 MILLION

SUMMARY

July-December exports of U.S. seeds for planting totaled \$128.7 million, 16 percent above a year earlier. December snipments totaled \$40.2 million, an increase of 2 percent over December 1981.

Forage seeds moved well for the six-month period, totaling \$31.9 million, an increase of 11 percent over last year. Heavy shipments to Italy, Germany, the United Kingdom, and France boosted U.S. exports to the European Community to \$9.1 million, 90 percent above a year ago. Shipments have also moved well to South Africa and Saudi Arabia but substantial declines were experienced in forage seed shipments to Mexico and Australia. Alfalfa seed exports totaled \$6.7 million, down 32 percent for the July-December period. Kentucky bluegrass moved well, totaling \$3.3 million, up 40 percent over a year earlier. The EC Kentucky bluegrass market was especially active, totaling \$1.2 million, an increase of 294 percent over July-December 1981. Movement of clover and fescue seeds was also active, totaling \$3.5 million each, up 87 percent and 28 percent respectively for the six-month period. Ryegrass seed exports totaled \$4.2 million, an increase of 22 percent over a year earlier.

Vegetable seed exports totaled \$54.4 million, a 21 percent increase over last year and made up 42 percent of total U.S. seed exports. Shipments to the EC have been active, totaling \$17.9 million, 24 percent above a year earlier. U.S. vegetable seed exports to Japan, the largest market, totaled \$8.9 million, an increase of 53 percent, for the 6 month period. The Mexican market has slowed this year with U.S. exports down 10 percent to \$5.8 million for the six months ending December 31, 1982. Pea, bean and sweet corn exports have moved well totaling \$6.2 million, \$5.4 million and \$4.6 million, respectively, for the period. Onion seed has also moved well totaling \$4.2 million, 29 percent above last year. U.S. vegetable seed snipments during December 1982 totaled \$15.2 million, 11 percent above a year earlier. Principal vegetable seeds exported during December were peas, sweet corn and beans valued at \$2.5 million, \$2.5 million and \$2.2 million, respectively. Principal markets for vegetable seeds were the EC and Japan with values of \$6.7 million and \$2.4 million, respectively.

Corn seed exports continued above a year ago for the July-December 1982 period, totaling \$17.9 million, an increase of 7 percent. However, exports for December declined 10 percent from 1981, totaling \$9.9 million. Italy, Japan and France have been the largest markets, receiving \$6.2 million, \$4.5 million and \$3.3 million respectively for the six-month period. Shipments of grain sorghum seed totaled \$6.7 million for July-December 1982, 1 percent below a year earlier. Major markets were Mexico and Japan which received \$2 million and \$1.2 million, respectively. Soybean seed shipments started slowly this year, totaling \$.8 million for July-December 1982. Sugar beet seed exports moved well during the six-month period, totaling \$2.3 million, up 182 percent over a year earlier. Sweden has received a large portion of the shipments, \$1.5 million, or 65 percent of total sugar beet seed exports.

Almost half, \$63.6 million, of U.S. exports of seeds for planting during July-December 1982 were snipped to the top five markets, Japan, Italy, Mexico, the Netherlands, and France. Japan was the largest market, \$20.2 million, an increase of 54 percent over a year earlier and 16 percent of total U.S. exports. Shipments to Japan included \$4.0 million forage seeds, \$8.9 million vegetable seeds, \$4.5 million corn seed and \$1.2 million grain sorghum seed.

Italy was the second largest market for U.S. seeds with \$12.5 million, up 53 percent over last year. Corn was the highest value category, totaling \$6.2 million, almost half of seed exports to Italy. U.S. exports to Mexico, the third largest market for U.S. seeds, totaled \$12.3 million, a 32 percent decrease from the same six-month period last year. Vegetable seeds made up \$5.8 million or 47 percent of U.S. exports to Mexico. Grain sorghum seed exports to Mexico were good during the six-month period, totaling \$2.0 million, 23 percent over last year. Snipments to the Netherlands and France have also been active. They totaled \$10.5 million, a 37 percent increase, to the Netherlands and \$8.2 million, a 32 percent increase to France for July-December 1982.
